Project Summary

Background

This institute has a significant past in the field of participation in projects with international scope. The project aims to take it back and project it into the future, to meet the needs and challenges that our society requires to face. For this reason, our project is divided into several objectives, each focusing on a different aspect, but complementary to others, to make our Institute a school of excellence in the territory.

Objectives

1. Achieve a good level of inclusion through the English language.
2. More aware active participation, experienced in an international context.
3. Updating of teaching and non-teaching staff through structured training courses, teaching activities in host schools and participation in job shadowing activities.
4. Development of personal, social competence and the ability to learning to learn.
5. Developing better digital competence, in the context of ongoing technological change

Impact

By the end of this project, students will have improved their language skills, digital, the personal awareness and awareness of being a European citizen. Teachers, through direct teaching activities abroad, of Job Shadowing and the participation in structured courses, they will have acquired new educational modalities (even for inclusion), methodological and didactic, in the teaching of the discipline also in CLIL mode.
